**Re:**    **2011-2012 Budget**

---

**Purpose**

To approve the capital and operating budgets for the 2011-2012 fiscal year in support of the board's system plan Achievement in Motion for Student Success.

**Background**

On March 31, 2011 the Ministry of Education released details of the 2011-2012 Grants for Student Needs (GSN). For the past number of years the board has experienced enrolment decline, beginning first in the board's elementary schools and now in both elementary and secondary schools. For 2011-2012 the board's enrolment is projected to decline by a further 338 students.

Up until now the board has avoided substantial program and service reductions as a result of this enrolment decline. This has been achieved as a result of government funding enhancements and protection built into specific grants within the education funding model that maintained funding support for specific program needs such as special education. However, in the past few years the provincial economic situation has caused the provincial government to introduce a number of fiscal restraint measures which reduced funding in certain grant allocations including supports which help alleviate the impact of declining enrolment. When grant and budget calculations were completed by administration the result was a projected deficit of \$3.6 Million.

**Current situation**

Recognizing the significant challenge this created, the Board supported administration's recommendation to generate significant and ongoing savings through a reduction in labour costs. As a result, budget reductions amounting to \$2 Million were incorporated into the draft 2011-12 budget.

The board held five budget sessions on March 28, May 9, May 24, June 6, and June 20, to review the impact of the funding changes and to discuss strategies to address the remaining shortfall of \$1.6 Million.

As a result of these discussions, further budget adjustments in the amount of \$770,000 were recommended for inclusion in the budget. These adjustments do not completely offset the funding shortfall and will leave the board with a projected in year deficit of \$892,000. Trustees supported the recommendation to fund the remaining shortfall from the Board's accumulated surplus.

Details of the 2011-2012 revenue and expenditure projections are summarized in Appendix 1. The Budget Committee recognizes the need for ongoing expenditure analysis and monitoring in order to continue to address the decline in funding and to protect the integrity of board programs and services in support of the board's system plan.
