Literacy

LITERATE CITIZENS

Students who are effective literate learners use the skills of thinking, expressing, and reflecting to listen, speak, read and write.

Why? Literacy is the foundation for lifelong learning. Literate students are able to make informed decisions and to actively engage in everyday life.

LITERATE CITIZENS

USING the **SKILLS** of
THINKING, EXPRESSING
and **REFLECTING** to

LISTEN — **SPEAK** — **READ** — **WRITE**

Globally Minded Learners and Leaders see themselves as connected citizens of the world.

Numeracy

NUMERATE CITIZENS

Students who are effective numerate learners use mathematical processes to problem-solve, communicate, and reflect on their thinking.

Why? Numeracy skills promote the development of logical thinking and reasoning strategies. Numerate students are able to competently apply mathematics in everyday life.

NUMERATE CITIZENS

USING **MATH** processes to
PROBLEM-SOLVE,
COMMUNICATE
and
REFLECT
on their **THINKING**

APPLYING **MATH** in everyday life!

NUMERACY SKILLS promote the **DEVELOPMENT** of **LOGICAL THINKING** AND REASONING STRATEGIES
